

Salesforce

Exam Questions B2B-Solution-Architect

Salesforce Certified B2B Solution Architect Exam

NEW QUESTION 1

SharpField is a fast-growing company that provides SaaS for commercial service providers. SharpField has been acquiring other similar companies and plans to continue to do so for the near future.

After a recent acquisition of a company that also has a Salesforce org, the CIO wants to know the correct path forward on deciding whether to integrate the acquired companies into SharpField's existing landscape.

What should a Solution Architect recommend to the CIO to ensure the correct org strategy for SharpField going forward?

- A. Recommend a single-org strategy and development of strict processes for all acquired companies to follow.
- B. Prioritize migrating the newly acquired company to SharpField's Salesforce org first, then perform an org strategy analysis to assess the Business, Technology, Governance, and Operations requirements for any future acquisitions.
- C. Prioritize completing an in-depth org strategy analysis, focused on the Business, Technology, Governance, and Operations requirements at SharpField.
- D. Recommend a multi-org strategy and development of required integration layers to move the required shared data between instances of any and all acquired Salesforce instances.

Answer: D

NEW QUESTION 2

Universal Containers (UC) is currently utilizing Sales Cloud and Revenue Cloud for its direct Sales team. UC would like to create an indirect Sales team with its vendors using Experience Cloud as the front end with the same kind of quoting functionality the direct Sales team uses within Revenue Cloud. However, UC wants to ensure that data from the internal direct Sales team is not visible to the external indirect Sales team in Experience Cloud.

What is the first configuration a Solution Architect should consider when implementing Experience Cloud in this scenario?

- A. Make internal organization-wide defaults Public Read Only to create external visibility.
- B. Enable External Sharing Model to create external organization-wide defaults.
- C. Start creating Sharing Sets for Experience Cloud users to access Sales Cloud.
- D. Add Indirect Sales Team to existing Direct Sales Team Role Hierarchy.

Answer: B

NEW QUESTION 3

Universal Containers (UC) is using Sales Cloud and Service Cloud. UC wants a solution that can send scheduled emails on a daily, weekly, or monthly basis to existing customers and prospects. UC also wants to track if customers have opened the emails. There can be as little as 1,000 emails in a week or as many as 100,000 emails in a month, depending on the season.

Based on that criteria, which solution should the Solution Architect recommend to UC?

- A. Set up scheduled flows to handle email sending and tracking.
- B. Recommend Marketing Cloud Account Engagement.
- C. Develop a custom solution using scheduled Apex to send emails.
- D. Recommend Marketing Cloud Personalization.

Answer: D

NEW QUESTION 4

Universal Containers (UC) is selling containers globally via distributors and is experiencing significant double-digit growth year-over-year. UC uses a centralized ERP system that holds the financial information of the distributors. The ERP system is siloed but offers connectivity via APIs. The account managers need to reference the financial information stored in the ERP while approving an order of a distributor inside Salesforce. The financial information of a distributor may change ad-hoc during the day in the ERP system and account managers need the latest data in front of them.

What should a Solution Architect recommend while designing an integrated, scalable solution to meet UC's needs?

- A. Use Change Data Capture to update the changes on the financial information inside Salesforce in near-real time.
- B. Use the scheduled data loader to extract the financial information every night from the ERP and save it inside Salesforce.
- C. Retrieve the financial information on-demand from the ERP via API and display the information as read-only using a lightning component.
- D. Schedule a MuleSoft batch job to retrieve financial information from the ERP every night and store it inside Salesforce for quick access.

Answer: C

NEW QUESTION 5

Northern Trail Outfitters (NTO) is in the middle of the buildout of Marketing Cloud Account Engagement and Sales Cloud. NTO has multiple business units, and each business unit has different access to lead and contact records. NTO wants to see how marketing data Sharing Rules are working across different business units to ensure that different business units can only see lead or contact records for their business unit.

What should a Solution Architect demo to the Marketing team to show that the different business units are connected correctly?

- A. Create a report in Marketing Analytics to show the different business units and the total leads and contacts in each business unit.
- B. Send test emails from Marketing Cloud Account Engagement to the same list of leads and contacts to show each lead or contact receiving emails from the various business units.
- C. It's not possible to have sandboxes with Marketing Cloud Account Engagement, and the Solution Architect will need to demo this with a Salesforce Sandbox fixed to a live Marketing Cloud Account Engagement environment.
- D. Create a dynamic list in multiple business units with the same rules, and show the total leads and contacts in the list per business unit.

Answer: A

NEW QUESTION 6

AW Computing (AWC) has just completed a multi-cloud implementation for Salesforce and is facing major user adoption challenges. Users are complaining that the system is complicated and hard to navigate.

What can the Center of Excellence (CoE) for Salesforce do to help increase user adoption?

- A. Place all training materials on the home page so users can find them easily.
- B. Record hour-long pieces of training for each job role so users can review on their own time.
- C. Break down training materials into quick reference guides for job-specific functions.
- D. Ensure each team has a Salesforce champion that can provide one-on-one training.

Answer: A

NEW QUESTION 7

During a B2B multi-cloud implementation, an executive sponsor from Universal Containers (UC) approaches the Solution Architect to discuss ongoing support and new functionality that will be rolled out to support UC. The current implementation supports Experience Cloud, Service Cloud, and Sales Cloud.

Which three recommendations should a Solution Architect make to ensure features are enabled without impacting user efficiency?

Choose 3 answers

- A. Give users a way to raise support tickets for new features they do not understand.
- B. Give users the ability to opt-out of any new feature they dislike.
- C. Fully document all customizations added to the system.
- D. Communicate and train users on new features.
- E. Ensure development, training, and production environments are in place.

Answer: ADE

NEW QUESTION 8

Universal Containers serves customers globally across two businesses. Each business has its own org for managing its sales and support operations. Each line of business also maintains its own reporting systems using both CRM Analytics and Salesforce reports, but the CEO is asking for a unique dashboard that includes the global opportunity pipeline with data from both orgs.

What should a Solution Architect propose?

- A. Use CRM Analytics in the primary org and create a Salesforce External Connectio
- B. Then, create a dataflow to combine data from both orgs.
- C. Use one org as primary and create external objects for the accounts and opportunities of the other one. Then, use standard reports.
- D. Use one org as primary and an ETL tool to synchronize the accounts and opportunities of the other org. Then, use standard reports.
- E. Use CRM Analytics in the primary org and then, in the dashboards, use Salesforce Connect to query the data from the other org.

Answer: A

NEW QUESTION 9

Universal Containers (UC) is concerned about potential data storage issues in Salesforce due to the Invoice, Order, and Inventory data that would be flowing in from various on-premise legacy CRM and ERP applications. UC would like to view and occasionally report on this data on-demand for day-to-day operational processes and would prefer not to store the data in Salesforce due to data residency requirements.

Which recommendation should the Solution Architect make to meet this requirement?

- A. Use Salesforce Orchestrator with MuleSoft to retrieve the data when it is needed.
- B. Push the data into Salesforce and implement an archival strategy.
- C. Write custom Apex code to retrieve the data in real time from external systems.
- D. Re-architect the implementation using Salesforce Connect and external objects.

Answer: D

NEW QUESTION 10

Universal Containers (UC) uses Sales Cloud, Service Cloud, and Experience Cloud. The implementation was completed 5+ years ago, and Service Cloud users are now expressing dissatisfaction with system performance. A custom Visualforce page was developed to show relevant data to Experience Cloud users. The same page is used by the Support team but displays more information based on their profile. UC has a small internal Support team for Salesforce that periodically enables new features in production.

Which best practice should the Solution Architect recommend to avoid these types of issues in the future?

- A. Assess the level of technical debt and test new features with the Product team in a Developer sandbox.
- B. Assess the level of technical debt and test new features in a sandbox before enabling in production.
- C. Assess the level of data quality and test new features with a pilot before enabling for all users.
- D. Assess the level of data quality and test new features with a subset of users in production before enabling all users.

Answer: C

NEW QUESTION 10

Universal Containers (UC) is adding to its existing Salesforce implementation and currently uses Saks Cloud and Service Cloud. UC is looking to add Salesforce Field Service and Experience Cloud to allow its

third-party contractors easier access to the data they need and to provide its customers a way to self-service.

UC has expressed interest m allowing its customers to be able to self-schedule maintenance work on their Assets. UC wants a solution to display scheduling options for the next month to its customers.

What should a Solution Architect consider m a potential solution?

- A. Lightning Web Components Calendar Module
- B. Appointment-Assistant Self Service Scheduling
- C. Salesforce Scheduler
- D. Standard Salesforce Asset Calendar

Answer: C

NEW QUESTION 14

Northern Trail Outfitters (NTO) is running a multi-cloud Salesforce implementation with lots of process integration between the clouds and other systems. During the project, NTO faces many challenges including a lack of agility and business value alignment, as well as silo-thinking. After trying different approaches, NTO begins to use Agile and is successful. The project manager now wonders what the recommended operating model would look like. What should be a Solution Architect's first recommendation?

- A. NTO should set up an Operations team within IT to ensure proper management of the integrations going forward.
- B. NTO should set up a model of continuous backlog with teams aligned to the different clouds to drive efficiency and team collaboration.
- C. NTO should set up a model of continuous backlog with teams aligned to the different products (capabilities) to improve efficiency.
- D. NTO should establish a Scaled Agile Center of Excellence to continuously improve agility and time to market.

Answer: D

NEW QUESTION 16

Universal Containers (UC) is about to complete the first phase of its digital transformation with its new Lead to Invoice process that incorporates several clouds like Sales Cloud, Service Cloud, Revenue Cloud, Experience Cloud, and MuleSoft. UC is now creating a Center of Excellence and focusing on a purely Agile methodology for working on new releases. UC wants to understand some of the considerations around release planning. What are two recommendations a Solution Architect should make to ensure UC's releases to production work within its release schedule and there are no delays in future releases? Choose 2 answers

- A. Fix the scope of the sprint during release planning regardless of how long it takes.
- B. Create a regular sprint cadence across the different teams to demonstrate new functionality.
- C. Use the last sprint of the release to stabilize it and eliminate identified issues.
- D. Utilize the last sprint to include functionality that was missed from previous sprints.

Answer: AB

NEW QUESTION 20

A Solution Architect was asked by AC Computers to provide solution recommendations for a rebate enrollment and management solution on Salesforce. The primary goal and requirement is to easily launch rebate programs for partners that an administrator can implement and manage in Salesforce. AC Computers currently uses Sales Cloud, Salesforce CPQ, and Experience Cloud to expose opportunity and quote information to partners. Based on the business requirements, which solution should the Solution Architect recommend?

- A. Implement a custom solution to track rebates, accruals, and actuals and expose the data in the Experience Cloud site.
- B. Implement Salesforce Service Contracts with line items to track rebate accruals and expose the data in the Experience Cloud site.
- C. Implement Salesforce Rebate Management Module and expose the data in the Experience Cloud site.
- D. Implement B2B Commerce on Lightning Experience to track rebates and expose the data in the Experience Cloud site.

Answer: A

NEW QUESTION 24

Universal Containers (UC) needs to support its customers via email, phone, and chat. Service agents are only scheduled to support one communication channel for each shift. UC has implemented a service-focused community but only wants customers to inquire about service in the community through chat. Which three options should a Solution Architect recommend to meet the requirements defined above? Choose 3 answers

- A. CTI adaptor with Omni-Channel integration
- B. Customer Community with ability to create a new support Case
- C. Experience Cloud, web-to-case, and a CTI integration
- D. Omni-Channel with defined presence, routing configurations, and Service Channels
- E. Customer Community with Live Agent

Answer: ABE

NEW QUESTION 25

Universal Containers uses the Salesforce Platform to track customer payments and any late payments. This is accomplished with an architecture that includes Marketing Cloud, Service Cloud, and an integration to the back-office billing system via MuleSoft. Invoices and payments are mastered in the billing system and exposed to Salesforce via MuleSoft. Notifications about customer payments are orchestrated out of Salesforce and emails are sent via Marketing Cloud. The late payment invoice data is required for service representatives to be able to reference within Salesforce. What should the Solution Architect recommend when determining the role of each system for a use case of sending payment reminders?

- A. Integrate the billing system directly with Marketing Cloud via MuleSoft to trigger based on events from the billing system.
- B. Create cases within Salesforce from the billing system based on payment statuses with MuleSoft event orchestration and send payment notifications via Marketing Cloud.
- C. Recommend a trigger from the billing system into Marketing Cloud, which sends customer formatted emails.
- D. Load the payment and invoicing data within Salesforce from the billing system with MuleSoft, and drive payment notifications via Marketing Cloud.

Answer: A

NEW QUESTION 28

Universal Containers (UC) is undergoing a multi-year digital transformation across its Sales, Marketing, Fulfillment, and Accounting channels. Based on UC's initial success using MuleSoft's API-led approach as its integration strategy, UC chose Salesforce for its transformation. The Solution Architect assigned to the project has just begun pre-planning for the first phase with UC's Implementation team. Which document should the Solution Architect ask for to get an overview of the customer's current infrastructure so they can begin the first phase of the digital transformation?

- A. A Salesforce ERD Document complete with field definitions
- B. A MuleSoft Application Document complete with integration patterns

- C. A Reference Architecture Diagram complete with system of record notation
- D. A future state roadmap detailing all of the implementation phases

Answer: B

NEW QUESTION 30

Universal Containers (UC) is starting to go through an inventory of capabilities in regard to its many data warehouses. UC's data warehouses are currently being provided with data from OMS, ERP, Accounting, and other inventory management systems. Data warehouses are utilized by those systems for storage or analytics purposes.

UC plans to utilize the Systems of Engagement framework to classify its systems based on how they will be utilized within the enterprise architecture. UC would like to understand which systems it should directly integrate with versus utilizing the data warehouses where that data may also be stored.

How should a Solution Architect classify the data warehouses as systems within the enterprise architecture of this scenario?

- A. System of Reference
- B. System of Engagement
- C. System of Intelligence
- D. System of Record

Answer: D

NEW QUESTION 31

A Solution Architect is working with Northern Trail Outfitters' Sales and Services team. They are currently evaluating how many environments they need to procure. As part of a preliminary review, it was identified that although the different business units were happy working in separate environments, there is a requirement to know each other's transactions.

Which two requirements would make the Solution Architect recommend a Single org over a multi-org strategy?

Choose 2 answers

- A. Collaboration between lines of business
- B. Simple security architecture across lines of business
- C. Global case management across lines of business
- D. Access to shared lines of business data

Answer: AD

NEW QUESTION 34

AC Computers has decided to extend its existing Sales Cloud solution by implementing Service Cloud and Marketing Cloud Account Engagement. AC Computers has defined two different work streams for Service Cloud and Marketing Cloud Account Engagement and wants each workstream to work iteratively in separate sandboxes and migrate to a single sandbox for UAT and integration testing. With the multiple workstreams, AC Computers needs a more rigorous change management process and an audit process.

Which two options should AC Computers consider to support both implementation workstreams? Choose 2 answers

- A. Use multiple development sandboxes and merge the workstream builds using change sets.
- B. Use a version control system and CLI-based deployment tools to merge the workstream builds.
- C. Use scratch orgs and continuous deployment tools to merge the workstream builds.
- D. Use package-based deployments and scratch orgs to merge the workstream builds.

Answer: AC

NEW QUESTION 39

Universal Containers (UC) is about to undergo its first release of its digital transformation initiative across clouds like Sales Cloud, B2B Commerce, Marketing Cloud Account Engagement, Experience Cloud, and MuleSoft. UC recently developed its Center of Excellence (CoE) model and is working on how to make sure its developers and administrators can go through a continuous release cycle. The product owner would like to make sure no work is overridden in sandboxes or production.

What is the first thing a Solution Architect should recommend within UC's DevOps setup?

- A. Make sure the developers all have access to the CLI so that they can package and push their changes to the next environment.
- B. Appoint a release manager who will keep track of all changes made and which changes have been deployed to the QA, SIT, and UAT environments as part of the sprint.
- C. Appoint a release manager who will set up the required environments and automated deployments in tandem with a source control based development process.
- D. Set up a source control based development process that's understood and followed by administrators and developers.

Answer: D

NEW QUESTION 41

Universal Containers (UC) wants to enhance the online purchase experience for its customers. The product and pricing information is managed in a separate ERP, while customer purchases are primarily triggered online through self-service. UC often offers promotions and discounts through various online seasonal events. UC wants the ability to provide customized quotes based on its relationship with the customer, as well as proactively process and monitor renewal and upgrade opportunities.

A Solution Architect has identified Sales Cloud, CPQ, Billing, and B2B Commerce as part of a potential multi-cloud solution.

Based on the above considerations, which option identifies the optimal data flow for this solution?

- A. Pricing and Product data should be pushed from ERP to B2B Commerce via the CPQ B2B Commerce Connector to CP
- B. Promotions should be handled in B2B Commerce
- C. Invoice and Billing should be maintained in Billing and surfaced on B2B Commerce via a Lightning component.
- D. Pricing and Product data should be pushed from ERP to CPQ and from there to B2B Commerce via the CPQ B2B Commerce Connector
- E. Promotions should be managed in CPQ as CPQ is the pricing master
- F. Invoice and Billing should be managed in B2B Commerce and pushed to Billing.
- G. Pricing and Product data should be pushed from ERP to both CPQ and B2B Commerce, keeping single source of truth

- H. Promotions should be handled in B2B Commerce
- I. Invoice and Billing should be maintained in Billing and pushed to B2B Commerce.
- J. Pricing and Product data should be pushed from ERP to CPQ and from there to B2B Commerce via the CPQ B2B Commerce Connector
- K. Promotions should be handled in B2B Commerce
- L. Invoice and Billing should be maintained in Billing and presented on B2B Commerce via a Lightning component.

Answer: A

NEW QUESTION 46

UC Foods, a global manufacturing organisation, builds and sells a variety of food processing equipment on its B2B Commerce site. Customers often tailor their equipment by selecting from several product variants. Depending on the options selected, an order will sometimes require manual intervention by a sales person to determine the price for the customized piece of equipment.

Once the machines have been purchased, each machine comes with a 1-year warranty, which entitles the customer to quarterly visits to inspect and perform maintenance on the machines to keep them in proper working order.

How can a Solution Architect use a multi-cloud solution to address the needs of the organization to efficiently support the selling of equipment and planning of quarterly visits for the machines?

- A. Use a third-party plugin configurator to support the selection of the product options, then create a CPQ quote when manual intervention is required
- B. For the quarterly visits, use Field Service Maintenance Plans.
- C. Use the B2B Commerce aggregated product or dynamic kits to drive the selection of the product options, then create a CPQ quote when manual intervention is required
- D. For the quarterly visits, use Field Service Maintenance Plans.
- E. Use the B2B Commerce aggregated product or dynamic kits to drive the selection of the product options, then automatically create a case when manual intervention is required
- F. For the quarterly visits, use Service Contracts and Entitlements.
- G. Use the B2B Commerce aggregated product or dynamic kits to drive the selection of the product options, then create a CPQ quote when manual intervention is required
- H. For the quarterly visits, use Service Contracts and Entitlements.

Answer: B

NEW QUESTION 47

AC Computers is hitting governor limits when trying to create orders and activate orders in Salesforce. Upon further investigation, it's discovered that AC Computers is trying to process hundreds of order products on a single order. The Order object also has various automation processes to update fields and integrate with a third-party order management system.

What is one solution a Solution Architect should evaluate first to resolve this issue?

- A. Create a custom object to hold orders in queue for processing.
- B. Review to determine if moving automation to asynchronous Apex is required.
- C. Enable Advanced Order Management to process large orders.
- D. Install a third-party solution to process large orders.

Answer: D

NEW QUESTION 52

Recently, Universal Containers (UC) successfully launched a multi-cloud B2B implementation with Sales Cloud, Service Cloud, Experience Cloud, and B2B Commerce. As the Sales and Service Cloud development was performed by separate teams, UC created Process Builder automation for the Account object in separate Process Builder processes. As customers move through the sales process within Sales Cloud, the data on their customer account record is updated. As those same customers make purchases within B2B Commerce, the data on their customer account record is updated as well.

What are two reasons why a Solution Architect should recommend uniting these into a single Process Builder process?

Choose 2 answers

- A. Moving them into a single Process Builder process helps to reduce the number of queries and avoid hitting limits on the Account object.
- B. Moving them into a single Process Builder process provides control over the order of the updates and actions triggered on the Account object.
- C. Moving them into a single Process Builder is the only way to ensure a naming convention is followed on the Account object.
- D. Moving one of the Process Builders into a flow will remove all automation conflicts on the Account object.

Answer: AB

NEW QUESTION 55

Universal Containers (UC) has implemented a new ecommerce site for its resellers. UC is leveraging a multi-cloud architecture, B2B Commerce, for building the storefront and Service Cloud Web2Case for offering case management functionality to its resellers. UC notices that the case volume is extremely high and a number of resellers are raising cases for trivial issues on the B2B Commerce site.

Which two recommendations should a Solution Architect make to help resellers use the site more efficiently and lower the case volume?

Choose 2 answers

- A. Offload the number of cases received via Web2Case by using Email2Case.
- B. Implement Case Deflection.
- C. Disable anonymous users on the site.
- D. Plan and conduct User Adoption Trainings for resellers on how to use the site.

Answer: AC

NEW QUESTION 56

Big Server Company sells complex server solutions to customers through a reseller channel. Resellers will purchase complex servers as well as have warehouses to store quick need products for their customers, such as additional hard drives and cables. Big Server Company currently uses Salesforce CPQ for its Sales team. Big Server Company would like to be able to give resellers easy access to purchase warehouse type products through B2B Commerce; however, the company

would also like to allow resellers to request additional discounts for large volume orders from the Sales team.
Which recommendation should a Solution Architect make to integrate B2B Commerce and Salesforce CPQ to accomplish this request.

- A. Utilize an integration software, like MuleSoft, to sync carts and pricing between B2B Commerce and Salesforce CPQ.
- B. Implement the Salesforce CPQ & Billing and CPQ B2B Commerce Connector and use the Cart to Quote flow to sync the cart to Salesforce CPQ, and have a reseller price rule adjust pricing for the reseller based on volume.
- C. Create a request special pricing button in B2B Commerce that will create an opportunity for the sales representative and allow the sales representative to follow up.
- D. Implement the Salesforce CPQ & Billing and CPQ B2B Commerce Connector and use the Cart to Quote flow to create a quote from the Resellers Cart, allowing a sales representative to configure discounts and sync back to cart.

Answer: B

NEW QUESTION 61

Universal Containers (UC) currently has Sales Cloud, Revenue Cloud, and Marketing Cloud Account Engagement within its existing Salesforce environment and is utilizing a standard Lead to Cash solution across those clouds. UC is 2 years into its Salesforce implementation, and the CIO is getting concerned with the sheer amount of data affecting its environment's data limits.

IT is doing upkeep on older records that may no longer be relevant. They have decided to start looking at data archival strategies and what to archive correctly. Given that this solution involves Leads from Marketing Cloud Account Engagement, Opportunities from Sales Cloud, and Quotes from Revenue Cloud, they are concerned about archiving related data on active sales pipelines. They also want to keep a historical snapshot of all of their Quotes, Opportunities, and Leads for future pipeline performance purposes and are open to options.

Choose 2 answers

- A. Propose Skinny Tables to the CIO before doing anything else.
- B. Understand the organization's regulatory requirements around right to retain or delete data.
- C. Recommend AppExchange solutions that provide capabilities around data archiving to the CIO.
- D. Segment the data in terms of data needed for daily operations, data that is used occasionally at demand, and data that is used purely for historical purposes.

Answer: BD

NEW QUESTION 64

A client is running a project with a 626 multi-cloud setup involving Marketing Cloud, Sales Cloud, Service Cloud, Experience Cloud, and MuleSoft. Currently, MuleSoft is primarily used to integrate with third-party systems. Marketing Cloud is connected to Sales/Service using the standard connector. A recent requirement-gathering session, involving all functional streams, brought up the question of where consolidated reporting will happen. So far, reporting has only been looked at individually per stream.

There is a steering committee meeting 1 week from now. The Solution Architect was asked to provide different solutions to fix the problem. The expectation is that a high-level evaluation will be done prior the steering committee meeting so that an indication of options can be given and additional funding can be requested.

Which three critical steps should the Solution Architect take first? Choose 3 answers

- A. Ensure all data objects across the different clouds have a unique external identifier
- B. Review the established and planned dataflows to understand where the systems of record sit and where data is transported to already.
- C. Review the system landscape to identify other existing solutions for reporting and start to investigate high-level cost impacts (in licenses aspects) for the most viable.
- E. Identify key drivers and high-level data scope behind the need for a consolidated reporting.
- F. Draft a solution to show how consolidated reporting can be done using CRM Analytics.

Answer: CDE

NEW QUESTION 69

At Custom Cabinets LLC, the service appointments often span over multiple days but are 2 to 4 hours in duration per day. The company would like to optimize the service resource's day and have them see as many customers as possible. Additionally, Custom Cabinets LLC would like a customer service representative to follow up with the customer once the field work has been completed.

Which approach should the Solution Architect take to meet these requirements?

- A. Leverage declarative automata to done Service Appointments for multiple day
- B. Like declarative automation to send a follow-up email to the customer.
- C. Leverage out-of-the-box Salesforce Field Service Work Types and out-of-the-box Multiday Service Appointment
- D. Use declarative automation to create a follow-up Case for customer service.
- E. Leverage out-of-the-box Salesforce Field Service Multiday Service Appointment
- F. Use declarative automation to send a follow-up email to the customer.
- G. Leverage out-of-the-box Salesforce Field Service Work Types and declarative automation to clone Service Appointments for multiple day
- H. Use declarative automation to create a follow-up Case for customer service.

Answer: C

NEW QUESTION 70

Universal Containers (UC) currently utilizes Sales Cloud and Experience Cloud for its customers. For the next phase in its digital transformation, UC would like to enable its vast dealer network with the kinds of tools its direct Sales teams are currently using. UC is considering Partner Communities (PRM) on Experience Cloud. UC's concern at the moment is making sure that its dealer network only gets access to the opportunities they themselves bring to UC or that UC submits to the dealer to close. This is a concern for the VP of direct sales who has issues with bringing PRM in at all.

What is the initial suggestion a Solution Architect should provide to make Partner Communities work for UC?

- A. Create two account lookups on the opportunity, one for dealer and one for partner company, and create sharing rules to share the records.
- B. Create public groups of partner companies and users at dealers, and share the opportunities using sharing rules.
- C. Utilize the external sharing model to differentiate the sharing models between Internal Sales users and External Communities users.
- D. Utilize the same sharing model within the Partner Community that customers are currently using within the Customer Community.

Answer: C

NEW QUESTION 71

Fabulous Flowing has been using Salesforce for 10 years and is starting to notice performance issues. The company anticipates continued growth of 15% each year. It frequently refers to data that is within the past 12 months. Currently, there are 600,000 Cases. Fabulous Flooring realizes it needs to archive some of the data, however, would like it to remain in Salesforce. The leadership team meets for an in-depth strategy and planning session every 3 years and will need reporting on the archived data. The Solution Architect has recommended the use of Big Objects.

What are two considerations the Solution Architect should discuss with Fabulous Flooring? Choose 2 answers

- A. Picklist fields will need to be marked as required for indexing in the Big Object
- B. The company will need to use Async SOQL to pull the data into a subject based on specific criteria, and build reports and dashboards for the strategy and planning session.
- C. Picklist fields will need to be loaded as Text fields into the big Object.
- D. The company will need to build reports and dashboards for the strategy and planning session based on specific criteria from the big Object.

Answer: BC

NEW QUESTION 74

3D Scanners needs to apply a discount automatically on the Quote Line for Distributors while in the Quote Line Editor. The percentage discount applied depends on attributes of the Distributor Account and that of the specific Product. Sales users can add additional discounts; however, those will need to go through an approval process that allows for resubmitting to only those that previously rejected the additional discount.

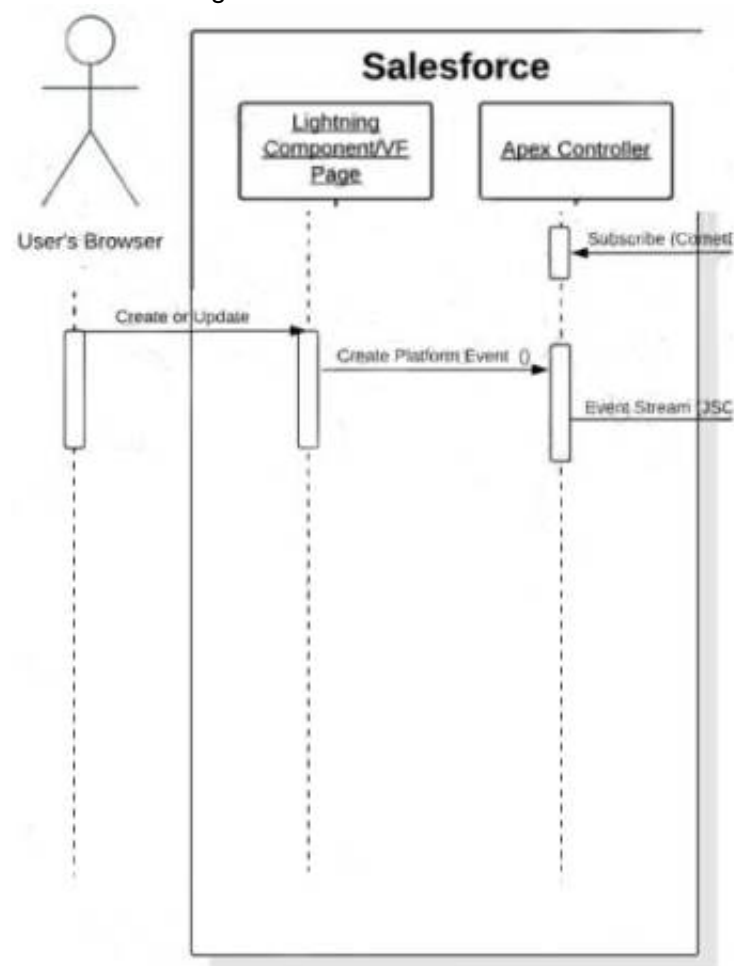

Which two options should a Solution Architect recommend to meet the requirements while keeping the user experience in mind? Choose 2 answers

- A. CPQ license
- B. Flow
- C. Price Rules
- D. CPQ Plus license

Answer: CD

NEW QUESTION 78

Refer to the images below:

As part of its solution to accelerate overall sales, Universal Containers (UC) has chosen to implement a CPQ solution using Salesforce CPQ. As part of the CPQ solution, there is a requirement to retain UC's ERP as the Pricing and Product master.

UC's business process results in Products and Pricing being updated sporadically once a week, and then on a much larger scale on a monthly basis, which could result in a large amount of records that need to be updated in Salesforce.

Which strategy should the Solution Architect choose to handle this scenario?

- A. Option A, utilizing a VF/Lightning component in combination with an Apex Controller to make a REST call to the external service
- B. Option B, utilizing Process Builder and Platform Events to communicate with the external services Subscriber Listener
- C. Option C, utilizing a VF/Lightning component in combination with an Apex Controller to make a call utilizing the Streaming API
- D. Option D, utilizing an external ETL tool to batch load the records into Salesforce

Answer: D

NEW QUESTION 79

Universal Containers (UC) is undergoing a full digital transformation and has chosen Salesforce as one of the main components. UC will use Sales Cloud for online activities, CPQ for quote generation and renewals, B2B Commerce for online orders through its partnerships and vendors, an external ERP for fulfillment and invoicing, and Marketing Cloud for customer outreach. UC wants to create fluidity between the entire application landscape, and an integration between systems is required.

The application is expected to be able to generate an order based on any of the channels outlined above, and be utilized in UC's outreach to its customers.

Where should a Solution Architect recommend the system of record (SOR) be for all orders going forward?

- A. In the ERP Order Object
- B. Salesforce Custom Object
- C. Salesforce Order Object
- D. B2B Commerce Order Object

Answer: C

NEW QUESTION 81

A Solution Architect has gathered requirements from discovery with Northern Trail Hot Tubs below:

- Northern Trail Hot Tubs sells through a B2B2C model with Dealers.
- Northern Trail Hot Tubs tracks Dealer Opportunities in Salesforce, but wishes to have more insight into the sales process from its Dealers.
- Dealers would like to be able to get custom Hot Tub pricing quickly from Northern Trail Hot Tubs without having to wait for configuration estimates to come back from Northern Trail Hot Tubs.
- Northern Trail Hot Tubs supports its Dealers and Customers directly, and Dealers would like better insight into support that their Customers receive.

Which capabilities should a Solution Architect suggest to provide to Northern Trail Hot Tub Dealers?

- A. Experience Cloud and Revenue Cloud for Dealers to get Quotes and view Cases
- B. B2B Commerce for Dealers to get pricing and Service Cloud for Cases
- C. Experience Cloud and Sales Cloud for Dealers to be able to create Opportunities and add Opportunity Products
- D. Experience Cloud and Service Cloud for Dealers to be able to request pricing through Cases and track Customer Cases

Answer: C

NEW QUESTION 82

AC Computers is launching a new subscription bundle service and plans to primarily sell through direct sales and a website storefront for existing customers.

Direct Sales needs the ability to configure complex deals and manage subscription. Existing customers need the ability to initialize a request for additional products and services from the storefront and seamlessly send the request directly to Sales to finalize the quote.

Which three recommendations should a Solution Architect make to meet these business requirements? Choose 3 answers

- A. Salesforce CPQ
- B. Salesforce Order Management
- C. Salesforce Billing
- D. B2B Commerce
- E. CPQ B2B Commerce Connector

Answer: ADE

NEW QUESTION 87

Universal Containers (UC) is looking to implement a CPQ + 626 Commerce multi-cloud solution and use the CPQ 626 Commerce Connector to keep the two in sync. As part of this implementation, UC is looking to be able to have a streamlined product and pricing experience. As UC would like to sell product kits with tiered pricing through the self-service storefront, it would like to ensure this model can be supported effectively.

Which two considerations should a Solution Architect keep in mind for the implementation? Choose 2 answers

- A. for supporting kits in the B2B Commerce Storefront, they need to create equivalent bundle products on the CPQ side.
- B. For the described multi-cloud solution, it is a best practice to set the CPQ precision to two decimal points.
- C. On the CPQ 826 Commerce Connector, the default mapping of tiered pricing in 826 Commerce is to Discount Schedules in CPQ.
- D. It is important to ensure the Price Rules run for Quotes initiated via 628 Commerce Storefront to maintain consistency in business rules being applied.

Answer: AC

NEW QUESTION 91

Universal Containers is currently utilizing B2B Commerce Cloud, Service Cloud, and Field Service for its Sales teams, call center, and Field Service teams. The Field Service team would like to have visibility of Commerce Cloud data because customers in the held will often ask about sales order details.

What should the Solution Architect recommend to give this kind of data access?

- A. Create a new permission set that grants access to the Order and Order Item object and assign it to the Field Service users.
- B. Create a new profile that grants access to the Order and Order Item object and assign it to the Field Service users.
- C. Give Commerce Cloud license to the Field Service team to view Order and Order Item data.
- D. Give Sales Cloud license to the Field Service team to view Order and Order Item data.

Answer: A

NEW QUESTION 94

Universal Containers (UC) wants to implement a Salesforce multi-cloud solution that includes CPQ, B2B Commerce, and Sales Cloud. UC wants to use as much of Salesforce's core capabilities as possible for its cart-to-quote customer journey. The order fulfillment process is managed separately in a third-party ERP.

Which two considerations should a Solution Architect keep in mind when thinking about data flows? Choose 2 answers

- A. Product and Pricing are set up with CPQ as the source of record.
- B. The source for the data feed to ERP is the CPQ Order object.
- C. All data points on products should be mapped and replicated between CPQ and B2B Commerce.
- D. Cart and Order record owners are mapped to Quote and Quote Line record owners.

Answer: AC

NEW QUESTION 97

Universal Containers (UC) has a multi-cloud environment that includes Sales Cloud, Service Cloud, and CPQ. The environment supports multiple languages via the translation workbench. As part of a roadmap, UC is implementing B2B Commerce. As part of this project, there is a requirement to translate data stored within

the Name and Description fields on the Product and Product Category objects.
What should a Solution Architect recommend to achieve this?

- A. Done data records and translate.
- B. Enable Translation Workbench.
- C. Add custom field with translations
- D. Enable Data translation for 626 Commerce.

Answer: D

NEW QUESTION 102

Northern Trail Outfitters (NTO) has around 500,000 active customers stored in the Account object. NTO gets an average of two orders per customer each month from both internal and online sales channels. NTO is expecting growth of 15% year-over-year (YoY). Various NTO users have recently started complaining about slower performances while accessing order information or running reports. NTO customers are also seeing slower responses while accessing their order history on B2B Commerce.

Which two options should a Solution Architect consider to improve performance? Choose 2 answers

- A. Develop an archiving strategy around order records from Salesforce based on a criteria that works with customer.
- B. Enable reporting snapshots to store summarised information.
- C. Create a custom component to display all order information.
- D. Use external objects instead of standard B2B Commerce Order object.

Answer: AB

NEW QUESTION 105

Universal Containers is at the start of a digital transformation program. Members of the executive leadership team have provided a list of internal and external stakeholders who are dedicated to formulating the vision and desired business outcomes in a 2-day workshop. The executive leadership team has made the request to understand what the customer experience will look like out of this workshop.

What should a Solution Architect do to help formulate the high-level business vision and desired business outcomes?

- A. Facilitate a workshop with the executive leadership team, applying the journey mapping process to create a vision and align customer journey to business objectives.
- B. Facilitate a strategy session with the executive leadership team to better understand their individual business units' priorities to achieve the business objectives.
- C. Ask to follow the Customer Service team for a day to gain a better understanding of how they work and identify their pain points to formulate this vision.
- D. Facilitate a business process mapping workshop with the executive leadership team to better understand the potential process improvements.

Answer: D

NEW QUESTION 106

Universal Containers (UC) is evaluating Salesforce for a Lead to Invoice solution, as its current process for getting payments from customers «s incredibly laborious. UC knows now its current invoice process runs through its back-office ERP, and is unsure how it would work within a front-office tool going from a lead all the way to an invoice. UC is looking to purchase Revenue Cloud, Sales Cloud, Marketing Cloud Account engagement, and MuleSoft to work with its CRP. The CIO also wants to make sure UC is utilizing the data across these clouds in the most automated way possible without a lot of manual data intervention as is required today within its back-office CRP

What should the steps in the business process look like when creating a multi-cloud Lead to Invoice solution in Salesforce if UC's CRP will be the system of record for invoices?

- A. Lead, Opportunity, Quote, Order, Invoice, Payment, ERP
- B. Lead, Opportunity, Quote, Order, ERP
- C. Opportunity, Quot
- D. Invoice, Payment, CRP
- E. Lead, Quote, Opportunity, Order, Invoic
- F. ERP, Payment

Answer: A
