

## MS-202 Dumps

### Microsoft 365 Messaging Administrator Certification Transition

<https://www.certleader.com/MS-202-dumps.html>

**NEW QUESTION 1**

- (Exam Topic 1)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft Exchange Server 2019 server named EX01. EX01 has the default Receive connectors. EX01 receives Internet email on port 25 from an appliance in the company's perimeter network.

The company has an application named App1 that can only send email on port 25. The application administrator requests that you enable App1 to route email through EX01 for delivery.

You need to ensure that EX01 only accepts email from the appliance and App1.

Solution: You add a second IP address to EX01. You create a new linked connector named App1 EX01. Does this meet the goal?

- A. Yes
- B. No

**Answer: B**

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/mail-flow/mail-routing/mail-routing?view=exchserver-2019>

**NEW QUESTION 2**

- (Exam Topic 1)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has two offices.

The network contains an Active Directory forest. The forest contains two domains. Each office is configured as an Active Directory site.

You need to recommend a plan for the deployment of Microsoft Exchange Server 2019 servers. The plan must ensure that a copy of each sent email message is always retained in a shadow queue.

Solution: You recommend deploying a database availability group (DAG) that will contain two servers. Each server will be in a different site. Both servers will be in the same domain.

Does this meet the goal?

- A. Yes
- B. No

**Answer: A**

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/mail-flow/transport-high-availability/shadow-redundancy?view=exchserver-2019>

**NEW QUESTION 3**

- (Exam Topic 1)

You have a Microsoft Exchange Server 2013 organization that has the following configurations:

- ▶ The forest functional level if Active Directory is Windows Server 2008 R2.
- ▶ The domain controllers in Active Directory run Windows Server 2012 R2.
- ▶ The Exchange servers run Windows Server 2012 Datacenter.

You plan to upgrade the organization to Exchange Server 2019.

You need to ensure that the organization meets the minimum supported requirements for the upgrade. What should you do?

- A. Upgrade the Exchange servers to Windows Server 2019.
- B. Raise the forest functional level to Windows Server 2012 R2.
- C. Upgrade the Exchange servers to Windows Server 2016.
- D. Upgrade the domain controllers to Windows Server 2016.

**Answer: B**

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/plan-and-deploy/system-requirements?view=exchserver-2019>

**NEW QUESTION 4**

- (Exam Topic 1)

You have a Microsoft 365 subscription for a company named Fabrikam, Inc. The company uses an Exchange Online tenant that has an email domain named fabrikam.com.

Fabrikam works with a partner company Contoso, Ltd. that uses an email domain named contoso.com.

A new security policy at Contoso states that any email sent from partners to Contoso employees must use TLS encryption.

You need to ensure that email sent from Fabrikam to Contoso uses TLS. What should you create in the tenant?

- A. a new connector that specifies the contoso.com SMTP domain
- B. a remote domain named contoso.com
- C. a new connector that specifies the fabrikam.com SMTP domain
- D. a remote domain named fabrikam.com

**Answer: A**

**Explanation:**

Configure a Send connector in Fabrikam to point to Contoso.

**NEW QUESTION 5**

- (Exam Topic 1)

You have a Microsoft Exchange Server 2019 organization that has a database availability group (DAG). The DAG contains the servers shown in the following table.

You install a new server named File02 that runs Windows Server 2019.

You attempt to add File02 as an alternate witness server, and you receive the following error messages: You need to ensure that you can configure File02 successfully as the alternate witness server.

What should you do on File02?

- A. Create an inbound firewall rule
- B. Add a member to the Administrators group.
- C. Enable PowerShell remoting.
- D. Create a shared folder.

**Answer:** B

**NEW QUESTION 6**

- (Exam Topic 1)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft Exchange Server 2019 server named EX01. EX01 has the default Receive connectors. EX01 receives Internet email on port 25 from an appliance in the company's perimeter network. The company has an application named App1 that can only send email on port 25. The application administrator requests that you enable App1 to route email through EX01 for delivery. You need to ensure that EX01 only accepts email from the appliance and App1.

Solution: You modify the remote IP address ranges of the default frontend Receive connector. Does this meet the goal?

- A. Yes
- B. No

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/mail-flow/connectors/receive-connectors?view=exchserver-2019>

**NEW QUESTION 7**

- (Exam Topic 1)

You have a Microsoft Exchange Server 2019 organization.

Ten days ago, a user named User1 sent an email message to a user named User2. User2 never received the message.

You need to identify whether the message was delivered to User2. What should you run from Exchange Management Shell?

- A. Get-MessageTraceDetail
- B. Search-MessageTrackingReport
- C. Get-MessageTrackingReport
- D. Get-MessageTrace

**Answer:** C

**Explanation:**

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/mail-flow/get-messagetrackingreport?view=exchange-ps>

**NEW QUESTION 8**

- (Exam Topic 1)

HOTSPOT

You have three Microsoft Exchange Server 2019 servers named MBX01, MBX02, and MBX03 in a database availability group (DAG) named DAG01. You have a single mailbox database named MDB01 that replicates to all the servers.

All users report that mailbox searches from Outlook on the web return no results. You discover that the mailbox content index on MBX02 has failed.

You need to ensure that all the users can search mailboxes successfully by using Outlook on the web. The solution must resolve the issue as quickly as possible.

How should you complete the command? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Update-MailboxDatabaseCopy

|                       |                               |
|-----------------------|-------------------------------|
| -Identity MDB01\MBX02 | -CatalogOnly                  |
| -SourceServer MBX02   | -DatabaseOnly                 |
| -Server DAG01         | -PrimaryDatabasePartitionOnly |
|                       | -DeleteExistingFiles          |

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/database-availability-groups/update-mailboxdata>

### NEW QUESTION 9

- (Exam Topic 1)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these Questions will not appear in the review screen.

Your company has a Microsoft Exchange Server 2019 server named EX01. EX01 has the default Receive connectors. EX01 receives Internet email on port 25 from an appliance in the company's perimeter network.

The company has an application named App1 that can only send email on port 25. The application administrator requests that you enable App1 to route email through EX01 for delivery.

You need to ensure that EX01 only accepts email from the appliance and App1.

Solution: You create a new remote domain and set the domain name to App1. You create a new delivery agent connector and set the IsScopedConnector property to \$true.

Does this meet the goal?

- A. Yes
- B. No

**Answer: B**

### NEW QUESTION 10

- (Exam Topic 1)

You have a Microsoft 365 subscription.

Several users report today that they cannot access email from their mobile device. They successfully accessed their email from the same device yesterday.

You need to identify which mobile device access rule applies to the devices. Which cmdlet should you run?

- A. Get-MsolDevice
- B. Get-ActiveSyncMailboxPolicy
- C. Get-ActiveSyncDeviceClass
- D. Get-MobileDevice

**Answer: D**

### NEW QUESTION 10

- (Exam Topic 1)

You are deploying Microsoft Exchange Server 2019 to two data centers in Paris and London. The Paris data center contains a file server named PAR-FILE01 and three Mailbox servers named PAR-MBX01, PAR-MBX02 and PAR-MBX03. The London data center contains a file server named LON-FILE01 and three Mailbox servers named LON-MBX01, LON-MBX02, and LON-MBX03.

You create a database availability group (DAG) that contains all six Mailbox servers and has PAR-FILE01 as a primary witness.

You need to set LON-FILE01 as the alternate witness. Which cmdlet should you run?

- A. New-DatabaseAvailabilityGroupNetwork
- B. Set-MailboxDatabaseCopy
- C. Set-DatabaseAvailabilityGroupNetwork
- D. Set-DatabaseAvailabilityGroup
- E. Add-DatabaseAvailabilityGroupServer

**Answer: D**

### Explanation:

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/database-availability-groups/setdatabaseavailabil>

### NEW QUESTION 12

- (Exam Topic 1)

You manage a Microsoft Exchange Server 2019 organization that sends 100,000 email messages to the Internet daily. The messages are routed through a single smart host by using a single Send connector that has an address space of \*.

Your network contains an Active Directory site named Site01 that has all the Exchange servers. You have a disaster recovery site named Site02 that has several SMTP servers.

The smart host fails.

You need to deliver queued messages to the Internet as quickly as possible. What should you do?

- A. Delete the Send connector.
- B. Modify the properties of the Send connector.
- C. Modify the MX records.
- D. Run the Get-Queue | Retry-Queue cmdlet.

**Answer: B**

### NEW QUESTION 16

- (Exam Topic 1)

Your network contains two Active Directory sites named Site1 and Site2.

You deploy a new Microsoft Exchange Server 2019 organization that contains a Mailbox server in each site. You need to configure the organization to use a single namespace for Autodiscover.

What should you do?

- A. Create an SRV record named AutoDiscover.
- B. Create a TXT record named AutoDiscover.
- C. Run the Set-ClientAccessService cmdlet.
- D. Run the Set-AutodiscoverVirtualDirectory cmdlet.

**Answer:** C

#### NEW QUESTION 21

- (Exam Topic 1)

You manage a Microsoft Exchange Server 2019 organization that has 3,000 users. Each user has a company provided mobile device that uses Exchange ActiveSync.

You discover that devices running a specific operating system version contain a bug that causes the excessive consumption of resources on the Exchange servers.

You need to prevent the devices from accessing email until the devices are updated. Which cmdlet should you run?

- A. Set-ActiveSyncDeviceAutoblockThreshold
- B. Set-MobileDeviceMailboxPolicy
- C. New-ActiveSyncDeviceAccessRule
- D. Set-CasMailbox

**Answer:** C

#### Explanation:

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/devices/new-activesyncdeviceaccessrule?view=exchange-ps>

#### NEW QUESTION 23

- (Exam Topic 1)

Your network contains an Active Directory domain named contoso.com.

You have a Microsoft Exchange Server 2019 organization for contoso.com that has two Internet-facing servers named EX01 and EX02.

In the public DNS zone, you have two MX records for contoso.com.

You discover that all email sent to the organization is delivered to EX01. However, when EX01 is down for maintenance, email messages are delivered successfully to EX02.

You need to ensure that email is delivered to both EX01 and EX02 during normal operations. What should you modify?

- A. the priority of the MX records
- B. the properties of the Receive connector on EX01
- C. the properties of the Receive connector on EX02
- D. the weight of the MX records

**Answer:** A

#### NEW QUESTION 27

- (Exam Topic 2)

You need to implement the required changes to the current Exchange organization for the Fabrikam partnership.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Set up directory synchronization.
- B. Create a remote domain.
- C. Configure an email address policy.
- D. Configure an external relay accepted domain.
- E. Configure an internal relay accepted domain.

**Answer:** CE

#### Explanation:

References:

<https://docs.microsoft.com/en-us/exchange/mail-flow/accepted-domains/accepted-domains?view=exchserver-20>

#### NEW QUESTION 28

- (Exam Topic 2)

You need to recommend a solution for the Audits and Notes folders.

What should you include in the recommendation? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

**Audits folder:** 

|                        |
|------------------------|
| Personal archive tags  |
| Default retention tags |
| Retention policies     |

**Notes folder:** 

|                        |
|------------------------|
| Personal archive tags  |
| Default retention tags |
| Retention policies     |

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/policy-and-compliance/mrm/retention-tags-and-retention-policies?vi>

**NEW QUESTION 29**

- (Exam Topic 3)

You need to configure a mail flow solution for email that will be sent from each branch office to the Internet. The solution must meet the technical requirements. What is the best way to achieve the goal? More than one answer choice may achieve the goal. Select the BEST answer.

- A. a Send connector in the main office that has a cost of 100 and uses a Mailbox server in each office as an SMTP smart host
- B. a Send connector in each office that each has the default costs
- C. two Send connectors in the main office that both have the default costs.
- D. a Send connector in each branch office that has a cost of 100 and uses a Mailbox server in the main office as an SMTP smart host

**Answer:** D

**NEW QUESTION 33**

- (Exam Topic 3)

You need to recommend a deployment plan that meets the technical requirements for the mailbox databases. What should you include in the recommendation?

- A. Deploy one Exchange server to the main office and two Exchange servers to each branch office
- B. Create one mailbox database on each server.
- C. Deploy 10 Exchange servers to the main office and one Exchange server to each branch office
- D. Create two mailbox databases on each server.
- E. Deploy 11 Exchange servers to the main office and one Exchange server to each branch office
- F. Create one mailbox database on each server.
- G. Deploy one Exchange server to each office
- H. Create two mailbox databases on each server
- I. Create copies of the databases on another server.

**Answer:** D

**NEW QUESTION 35**

- (Exam Topic 3)

You need to implement a routing solution that meets the technical requirements. What should you do?

- A. In each office, create a scoped Send connector.
- B. Create an SMTP site link for each office.
- C. Configure the main office as an Active Directory hub site.
- D. Create 10 accepted domains.

**Answer:** C

**NEW QUESTION 38**

- (Exam Topic 4)

You deploy a Microsoft Exchange Server 2019 organization.

You need to ensure that users of all new mailboxes are prevented from editing their personal information. What should you do?

- A. From PowerShell, run the New-RoleGroup cmdlet and specify the –CustomRecipientWritesScope parameter.
- B. From the Exchange admin center, create a new role assignment policy.
- C. From the Exchange admin center, run a new role group and assign the role group to Domain users.
- D. From PowerShell, run the New-RoleAssignmentPolicy cmdlet and specify the –isDefault parameter.

**Answer:** D

**Explanation:**

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/role-based-access-control/newroleassignmentpol>

**NEW QUESTION 42**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 organization.

All recipients have SMTP address in the <alias>@adatum.com format. You purchase a new domain named contoso.com

You need to configure all the recipients to have a primary SMTP address in the <alias>@contoso.com format as soon as possible.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

| Actions                                  | Answer Area |
|--|-------------|
| Create an address book policy (ABP).     |             |
| Apply the policy.                        |             |
| Create a Receive connector.              |             |
| Modify the default email address policy. |             |
| Modify the default accepted domain.      |             |
| Create an authoritative accepted domain. |             |

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/mail-flow/accepted-domains/accepted-domain-procedures?view=exc> <https://docs.microsoft.com/en-us/exchange/email-addresses-and-address-books/email-address-policies/eap-proce>

**NEW QUESTION 45**

- (Exam Topic 4)

Your network contains an Active Directory domain named fabrikam.com.

You have a Microsoft Exchange Server 2019 organization that contains two Mailbox servers in a database availability group (DAG).

You plan to implement a hybrid deployment by using the Exchange Modern Hybrid connection option. Which three configurations will be transferred automatically from the on-premises organizations to Exchange Online? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. the device access rules
- B. the address lists
- C. the address book policies (ABPs)
- D. the Messaging Records Management (MRM) settings
- E. the mail flow rules

**Answer:** ABE

**Explanation:**

References:

<https://practical365.com/exchange-online/hybrid-exchange-making-it-easier-and-faster-to-move-to-the-cloud/>

**NEW QUESTION 46**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 organization that uses a namespace of contoso.com.

Email address policies for contoso.com are configured as shown in the Address Policies exhibit. (Click the Address Policies tab.)

| Address Policies         |          |         |
|--------------------------|----------|---------|
| + / [icon] [icon] [icon] |          |         |
| Name                     | PRIORITY | STATUS  |
| Marketing                | 1        | Applied |
| Sales                    | 2        | Applied |
| Default Policy           | Lowest   | Applied |

The Marketing email address policy is shown in the Marketing Policy exhibit. (Click the Marketing Policy tab.)

## Marketing Policy

### Marketing

#### Email Address Format

##### SMTP

Primary: John.Smith@contoso.com

Address 2: John.Smith@marketing.contoso.com

#### Includes

Users with Exchange mailboxes,  
in the following departments: Marketing

The Sales email address policy is shown in the Sales Policy exhibit. (Click the Sales Policy tab.)

## Sales Policy

### Sales

#### Email Address Format

##### SMTP

Primary: %1g.%@contoso.com

#### Includes

Users with Exchange mailboxes,  
in the following departments: Sales

This email address policy has been applied.

For each of the following statements, select Yes if the statement is true. otherwise, select No.

| Statements   | Yes                   | No                    |
|--|-----------------------|-----------------------|
| The user mailboxes of the marketing department will have an additional email address that uses a SMTP suffix of @marketing.contoso.com | <input type="radio"/> | <input type="radio"/> |
| The user mailbox of a sales department user named Ben Smith will have an email address of b.smith@contoso.com                          | <input type="radio"/> | <input type="radio"/> |
| All user mailboxes will have an email address in the firstname.lastname@contoso.com format.  | <input type="radio"/> | <input type="radio"/> |

- A. Mastered
- B. Not Mastered

**Answer:** A

#### **Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/email-addresses-and-address-books/email-address-policies/email-add>

#### **NEW QUESTION 48**

- (Exam Topic 4)

Your company has 5,000 Microsoft Exchange Server 2019 mailboxes.

The company is implementing a new application named HR1 that integrates with Exchange. HR1 runs on a server named HRSERVER.

You create a new mailbox named HRService for the service account of HR1.

You need to ensure that HR1 can sync contacts from all the mailboxes in the Exchange organization concurrently by using an Exchange ActiveSync connection.

How should you complete the PowerShell script? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

| Values                             | Answer Area |
|------------------------------------|-------------|
| New-ThrottlingPolicy HR            | Value       |
| New-ResourcePolicy HR              | Value       |
| -AnonymousMaxConcurrency \$null    | Value       |
| Set-Mailbox HRService              | Value       |
| -EASMaxConcurrency \$null          |             |
| -ThrottlingPolicy HR               |             |
| Set-ThrottlingPolicyAssociation HR |             |

- A. Mastered  
B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/server-health-and-performance/new-throttlingpol> <https://docs.microsoft.com/en-us/powershell/module/exchange/server-health-and-performance/set-throttlingpolic>

**NEW QUESTION 53**

- (Exam Topic 4)

You have a Microsoft 365 E5 subscription.

A user attempts to send an email message to an external recipient and receives the following error message: “Your message couldn't be delivered because you weren't recognized as a valid sender. The most common

reason for this is that your email address is suspected of sending spam and it's no longer allowed to send messages outside of your organization. Contact your mail admin for assistance. Remote Server returned '5505.1.6 Access denied, bad outbound sender'.”

You need to ensure that the user send email to external recipients. What should you do?

- A. compliance management in the Exchange admin center  
B. Data loss prevention in the Security & Compliance admin center  
C. Threat management in the Security & Compliance admin center  
D. action center in the Exchange admin center

**Answer:** D

**Explanation:**

References:

<http://www.noelpulis.com/fix-550-5-1-8-access-denied-bad-outbound-sender/>

**NEW QUESTION 58**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 hybrid deployment.

You are migrating mailboxes from the on-premises organization to Exchange Online.

From the Exchange admin center, you create a new migration batch that includes 25 mailboxes, and then select Manual Complete the batch.

Later, you must complete the migration of a mailbox named user1@litware.com in the batch as soon as possible. You discover that the status of the migration batch is Syncing, but the status of the move request for user1@litware.com is Synced.

You need to complete the migration of the user1@litware.com mailbox to Exchange Online as soon as possible.

How should you complete the command? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

|   |  |  |
|---|--|--|
| <div><div></div><div>Set-MoveRequest</div><div>Set-MigrationBatch</div><div>Set-MigrationConfig</div></div> | <div><div></div><div>-Identify "user1@litware.com"</div></div> | <div><div></div><div>-CompleteAfter (Get-Date)</div><div>-SuspendWhenReadyToComplete \$false</div><div>-PreventCompetition \$false</div></div> |
| <div>Resume-Moverequst -Identity "user1@litware.com"</div>  |  |  |

- A. Mastered  
B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/move-and-migration/set-moverequst?view=exc>

**NEW QUESTION 62**

- (Exam Topic 4)

Your company has a Microsoft Exchange Server 2019 organization.  
The company has 10,000 mailboxes. Each department at the company has 1,000 mailboxes.  
You need to ensure that when users query the global address list (GAL), they can view only the list of the users in their department.  
What should you create?

- A. One GAL, 10 offline address books (OABs), 10 address lists, 10 address policies (ABPs), and one email address policy
- B. 10 GALs, 10 offline address books (OABs), 10 address lists, 10 room lists, and 10 address book policies (ABPs)
- C. One GAL, 10 offline address books (OABs), 10 address lists, 10 room lists, and one address book policy (ABP)
- D. 10 GALs, 10 offline address books (OABs), 10 address lists, and 10 email address policies

**Answer: B**

**Explanation:**

References:  
<https://docs.microsoft.com/en-us/exchange/address-books/address-lists/create-global-address-list>

**NEW QUESTION 65**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 organization.  
You need to prevent credit card information from being emailed outside of the organization. Users must be informed of any potential breaches before sending email.  
What should you create?

- A. a journal rule
- B. a retention policy
- C. a retention tag
- D. a data loss prevention (DLP) policy

**Answer: D**

**Explanation:**

References:  
<https://docs.microsoft.com/en-us/office365/securitycompliance/data-loss-prevention-policies>

**NEW QUESTION 70**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 organization that contains 1,000 users and three Mailbox servers.  
You discover an increase in spam.  
You need to use an anti-spam real-time block list. What should you do first?

- A. Configure the junk email settings for the mailboxes.
- B. Run the Install-AntispamAgent.ps1 PowerShell script.
- C. Deploy a data loss prevention (DLP) policy.
- D. Deploy an Edge Transport server.

**Answer: B**

**Explanation:**

References:  
<https://docs.microsoft.com/en-us/exchange/antispam-and-antimalware/antispam-protection/antispam-onmailbox>

**NEW QUESTION 75**

- (Exam Topic 4)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.  
After you answer a question in this scenario, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.  
Your company has a Microsoft 365 subscription.  
Several users in the finance department of the company recently accesses unsafe websites by clicking on links in email messages.  
Users in the marketing department of the company report that they must be able to access all the links embedded in email messages.  
You need to reduce the likelihood of the finance department users accessing unsafe websites. The solution must affect only the finance department users.  
Solution: You create a new safe attachments policy. Does this meet the goal?

- A. Yes
- B. No

**Answer: B**

**Explanation:**

References:  
<https://docs.microsoft.com/en-us/office365/securitycompliance/atp-safe-attachments>

**NEW QUESTION 76**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 organization. Users access their email by using Microsoft Outlook 2019.  
The users report that their address list in Outlook sometimes takes a full day to show new entries. You need to ensure that the address list updates within four hours.  
Which cmdlet should you run?

- A. Set-MailboxServer
- B. Set-OfflineAddressBook
- C. New-OfflineAddressBook
- D. New-SettingOverride

**Answer:** D

**Explanation:**

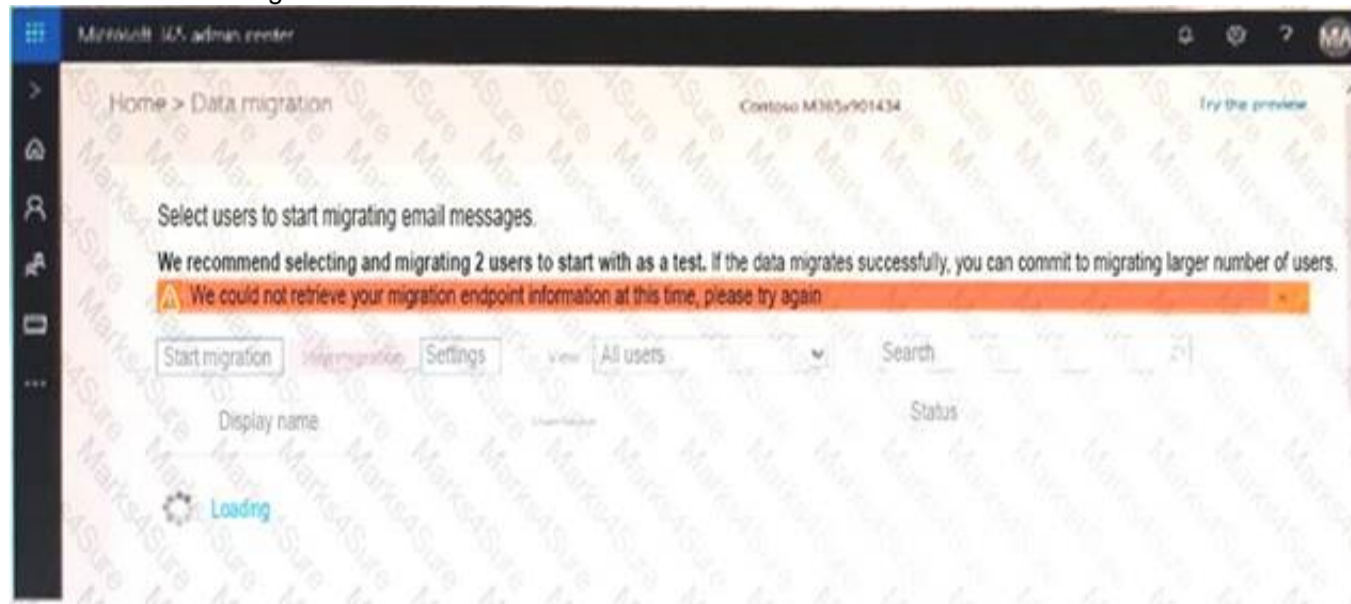

References:

<https://docs.microsoft.com/en-us/exchange/plan-and-deploy/post-installation-tasks/change-oab-generationsched>

**NEW QUESTION 78**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 organization and a Microsoft 365 E5 subscription. From the Microsoft 365 admin center, you open Data migration as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

The Microsoft Office 365 Hybrid Configuration wizard [answer choice].

must be downloaded

was completed

was not run

The move mailboxes, the [answer choice] virtual directory must be available to Exchange Online.

Autodiscover

ecp

EWS

mapi

PowerShell

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://www.stellarinfo.com/blog/hybrid-migration-migrate-exchange-mailboxes-office-365/> <https://www.kerneldatarecovery.com/blog/migrate-from-exchange-on-premises-to-exchange-online-in-hybrid-en>

**NEW QUESTION 79**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 hybrid deployment that contains the users shown in the following table.

| Name  | Mailbox location     |
|-------|----------------------|
| User1 | Exchange Online      |
| User2 | Exchange on-premises |

You need to provide each user with an archive mailbox that is stored in Exchange Online.

Which admin center should you use to perform the configuration for each user? To answer, drag the appropriate admin centers to the correct users. Each admin center may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

| Admin Centers  | Answer Area         |
|--|---------------------|
| The Exchange admin center from an on-premises server | User1: Admin Center |
| The Exchange admin center from Exchange Online       | User2: Admin Center |
| The Microsoft 265 admin center                       |                     |
| The Security and Compliance admin center             |                     |

- A. Mastered  
B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/enable-archive-mailboxes> <https://docs.microsoft.com/en-us/exchange/hybrid-deployment/create-cloud-based-archive>

**NEW QUESTION 83**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 organization that contains mailbox servers in four Active Directory sites. The organization contains 35,000 user mailboxes. The network bandwidth between the sites is limited.

Users frequently travel between the sites.

You need to ensure the users download the offline address book (OAB) from a local server. What should you do?

- A. Create an arbitration mailbox in each site and configure shadow copies of the OAB.  
B. Modify the OAB virtual directories on the Exchange servers in each site to use unique URLs.  
C. Place the arbitration mailbox of the OAB in a database that replicates between the sites by using a database availability groups (DAG).  
D. Create a separate OAB and arbitration mailbox in each site.

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/email-addresses-and-address-books/offline-address-books/offlineadd-books?view=exchserver-2019>

**NEW QUESTION 86**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 organization. You have the groups shown in the following table.

| Name   | Type         | Scope        |
|--------|--------------|--------------|
| Group1 | Security     | Universal    |
| Group2 | Distribution | Universal    |
| Group3 | Security     | Global       |
| Group4 | Distribution | Global       |
| Group5 | Security     | Domain local |

You plan to create a new management role assignment by running the following command. New-ManagementRoleAssignment -Role "Litware DB Admins" -SecurityGroup -ExclusiveConfigWriteScope "Scope1"

Which group can you use as the value for the SecurityGroup parameter?

- A. Group1  
B. Group2  
C. Group3  
D. Group4  
E. Group5

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/permissions/permissions?view=exchserver-2019>

**NEW QUESTION 88**

- (Exam Topic 4)

Your company named Contoso, Ltd. has a Microsoft Exchange Server 2019 hybrid deployment.

A partner company named Fabrikam, Inc. uses an Exchange Online subscription for email.

You need to ensure that all the users at Fabrikam can view the free/busy information of the users at Contoso. What should you configure? To answer, drag the appropriate components to the correct companies. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

| Components                              | Answer Area                        |
|---|------------------------------------|
| <div>A connector</div>                  | For Fabrikam: <div>Component</div> |
| <div>A sharing policy</div>             |                                    |
| <div>A remote domain</div>              | For Contoso: <div>Component</div>  |
| <div>A federation trust</div>           |                                    |
| <div>An organization relationship</div> |                                    |

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/sharing/organization-relationships/create-an-organization-relationshi> <https://docs.microsoft.com/en-us/exchange/sharing/sharing-policies/sharing-policies>

**NEW QUESTION 89**

- (Exam Topic 4)

You have a Microsoft Exchange Server 2019 organization.

You plan to purchase a Microsoft 365 E5 subscription and create a hybrid deployment.

You are evaluating the security requirements for communication between the on-premises and Exchange Online.

You need to ensure that Exchange Online services can access the necessary on-premises virtual directories.

Which two on-premises virtual directories should be accessible to Exchange Online services? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Rpc
- B. EWS
- C. PowerShell
- D. ecp
- E. mapi
- F. Autodiscover

**Answer:** EF

**Explanation:**

References:

<https://docs.microsoft.com/en-us/office365/enterprise/configure-exchange-server-for-hybrid-modernauthenticati>

**NEW QUESTION 91**

- (Exam Topic 5)

You need to recommend an Office 365 solution that meets the technical requirements for email from adatum.com.

Which two components should you recommend configuring from the Exchange admin center in Exchange Online? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. DKIM signatures
- B. a spam filter
- C. a connection filter
- D. a malware filter
- E. data loss prevention (DLP) policies

**Answer:** BC

**NEW QUESTION 93**

- (Exam Topic 5)

You need to recommend a solution that meets the security requirements for protecting users. What should you recommend?

- A. From the Security & Compliance admin center, create an ATP anti-phishing policy.
- B. From the Security & Compliance admin center, create an ATP Safe Links policy.
- C. From the Exchange admin center in Exchange Online, create a spam filter policy.
- D. From the Security & Compliance admin center, create an ATP safe attachments policy.

**Answer:** B

**Explanation:**

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/set-up-atp-safe-links-policies>

**NEW QUESTION 98**

- (Exam Topic 5)

You need to resolve the email delivery delay issue. What should you do?

- A. From the Security & Compliance admin center, modify the safe attachments policy
- B. From the Security & Compliance admin center, create a supervision policy.
- C. From the Exchange admin center in Exchange Online, modify the antimalware policy.
- D. From the Exchange admin center in Exchange Online, modify the spam filter policy.

**Answer:** A

**Explanation:**

References:

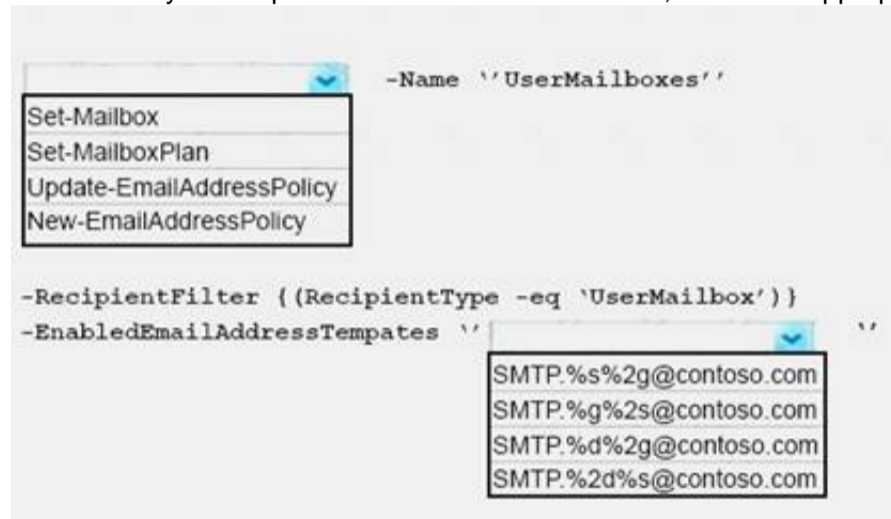

<https://docs.microsoft.com/en-us/office365/securitycompliance/dynamic-delivery-and-previewing>

**NEW QUESTION 101**

- (Exam Topic 5)

You need to configure the environment to support the planned changes for email addresses.

How should you complete the command? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/email-addresses-and-address-books/new-emailad> <https://docs.microsoft.com/en-us/Exchange/email-addresses-and-address-books/email-address-policies/email-ad>

**NEW QUESTION 106**

- (Exam Topic 6)

You need to resolve the issue for the transport department users.

What is the best way to achieve the goal? More than one answer choice may achieve the goal. Select the BEST answer.

- A. Move the public folder mailbox that contains TransportPF to a server in the main office.
- B. Move TransportPF to a public folder mailbox hosted in the main office.
- C. Modify the default public folder mailbox for all the transport department users.
- D. Instruct the transport department users to add TransportPF to their Favorites list in Outlook.

**Answer:** B

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/recipients/mailbox-moves?view=exchserver-2019>

**NEW QUESTION 108**

- (Exam Topic 6)

You need to recommend a procedure for closing the Brussels office that meets the technical requirements. What should you recommend?

- A. In the main office, deploy an Exchange Server 2016 server that has the Unified Messaging role installed, and then move the mailboxes from the Brussels office to the new server.
- B. Deploy a Microsoft Skype for Business 2019 server to the main office, and then move the mailboxes from the Brussels office to an Exchange Server 2019 server in the main office.
- C. Implement a new mailbox database on an Exchange Server 2019 server in the main office, and then move the mailboxes from the Brussels office to the new mailbox database.
- D. Implement a new database availability group (DAG) that contains the server in the Brussels office and a new Exchange Server 2019 server in the main office, and then create a mailbox database copy on the new server in the main office.

**Answer:** C

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/architecture/mailbox-servers/manage-mailbox-moves?view=exchserver-2019>  
<https://theitbros.com/move-exchange-mailboxes-to-another-database/>

**NEW QUESTION 113**

- (Exam Topic 6)

You need to recommend a solution to retain the items in the public folders. The solution must support the planned changes. What should you recommend?

- A. Create an Outlook rule that forwards all the items in each public folder to a compliance mailbox.
- B. Place an In-Place Hold on all the mailboxes of the public folders.
- C. Increase the frequency of the backups.
- D. Modify the public folder permissions.

**Answer: B**

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/security-and-compliance/in-place-and-litigation-holds#placingpublic>

**NEW QUESTION 116**

- (Exam Topic 6)

You need to implement a solution to meet the technical requirements for the SCL.

How should you complete the command? To answer, select the appropriate options in the answer area.

- A. Mastered
- B. Not Mastered

**Answer: A**

**Explanation:**

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/organization/set-organizationconfig?view=exchange-ps>

**NEW QUESTION 121**

- (Exam Topic 7)

You have a Microsoft 365 subscription that uses a default domain named contoso.com.

Users report that email messages from a domain named fabrikam.com are identified as spam even though the messages are legitimate.

You need to prevent messages from fabrikam.com from being identified as spam. What should you do?

- A. Edit the default mail flow rule to bypass the spam filter.
- B. Create a new remote domain.
- C. Edit a spam filter policy.
- D. Create a new malware filter policy.

**Answer: C**

**NEW QUESTION 123**

- (Exam Topic 7)

Your company has offices in Montreal and Seattle. Each office has 2,000 users.

You are designing a Microsoft Exchange Server 2019 organization that will span both offices.

You need to recommend a high-availability solution for mailbox databases. The solution must ensure that high availability is maintained if a single site fails.

Which recommendation best meets the requirements? More than one answer choice may achieve the goal. Select the BEST answer.

- A. In each office, deploy one database availability group (DAG) that has two nodes
- B. Deploy one database availability group (DAG) that runs one node in each office
- C. Deploy one database availability group (DAG) that has two nodes in each office
- D. Deploy a Mailbox server to a Hyper-V host and use Hyper-V replication

**Answer: C**

**Explanation:**

References:

<https://docs.microsoft.com/en-us/Exchange/high-availability/deploy-ha?view=exchserver-2019>

**NEW QUESTION 126**

- (Exam Topic 7)

Your network contains an Active Directory forest named contoso.com. The forest contains two child domains named north.contoso.com and south.contoso.com.

You plan to prepare Active Directory for a new Microsoft Exchange Server 2019 organization. All the domains will host user accounts for the Exchange mailboxes.

An administrator runs Exchange Setup on a domain controller in the forest. You need to ensure that the forest is fully prepared for Exchange.

What should you verify in the child domains?

- A. whether the Exchange Install Domain Servers group exists in the Microsoft Exchange System Objects container

- B. whether the Recipient Management group exists in each domain
- C. whether the Organization Management group exist in each domain
- D. whether the Microsoft Exchange Security Groups organization unit (OU) exists in each domain

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/plan-and-deploy/active-directory/ad-changes?view=exchserver-2019>

**NEW QUESTION 130**

- (Exam Topic 7)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than once correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You create a new Microsoft 365 E5 subscription.

You need to identify which administrator deleted mailboxes during the last two days. Solution: From the Cloud App security admin center, you view the audit log. Does this meet the goal?

- A. Yes
- B. No

**Answer:** B

**NEW QUESTION 132**

- (Exam Topic 7)

You have a hybrid deployment of Microsoft Exchange Server 2019 and Microsoft 365 that contains three servers.

All email received from the Internet is sent directly to the servers. You run the following command.

Get-MalwareFilterPolicy | FL Name,BypassInboundMessages, BypassOutboundMessages,Action,IsDefault You receive the output in the following exhibit.

```
Name                : Default
BypassInboundMessages : False
BypassOutboundMessages : False
Action              : DeleteAttachmentAndUseDefaultAlertText
IsDefault           : True
EnableInternalSenderNotifications : True
EnableExternalSenderNotifications : True
```

You run the Get-TransportAgent cmdlet and receive the output shown in the following exhibit.

| Identity                        | Enabled | Priority |
|---------------------------------|---------|----------|
| -----                           | -----   | -----    |
| Transport Rule Agent            | True    | 1        |
| DLP Policy Agent                | True    | 2        |
| Retention Policy Agent          | True    | 3        |
| Supervisory Review Agent        | True    | 4        |
| Malware Agent                   | False   | 5        |
| Text Messaging Routing Agent    | True    | 6        |
| Text Messaging Delivery Agent   | True    | 7        |
| System Probe Drop Smtip Agent   | True    | 8        |
| System Probe Drop Routing Agent | True    | 9        |

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

| Statements   | Yes                   | No                    |
|--|-----------------------|-----------------------|
| If an email message sent from the Internet contains malware, the message will be delivered successfully to the recipient's mailbox.                                    | <input type="radio"/> | <input type="radio"/> |
| To prevent an email message from the Internet that contains malware from being delivered to an internal recipient, the default antimalware policy must be modified.    | <input type="radio"/> | <input type="radio"/> |
| To prevent an email message from the Internet that contains malware from being delivered to an internal recipient, the priority of the malware agent must be modified. | <input type="radio"/> | <input type="radio"/> |

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

| Statements   | Yes                              | No                               |
|--|----------------------------------|----------------------------------|
| If an email message sent from the Internet contains malware, the message will be delivered successfully to the recipient's mailbox.                                    | <input checked="" type="radio"/> | <input type="radio"/>            |
| To prevent an email message from the Internet that contains malware from being delivered to an internal recipient, the default antimalware policy must be modified.    | <input type="radio"/>            | <input checked="" type="radio"/> |
| To prevent an email message from the Internet that contains malware from being delivered to an internal recipient, the priority of the malware agent must be modified. | <input type="radio"/>            | <input checked="" type="radio"/> |

#### NEW QUESTION 137

- (Exam Topic 7)

You have a Microsoft Exchange Server 2019 hybrid deployment. All Mailbox servers and domain controllers are in the same site. You deploy an Edge Transport server.

You need to ensure that all SMTP traffic between the on-premises organization and Exchange Online is routed through the Edge Transport server.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

| Actions   | Answer Area |
|---|-------------|
| On the Edge transport server, run New-EdgeSubscription.   |             |
| On a Mailbox server, run New-EdgeSubscription.            |             |
| Run the Microsoft Office 365 Hybrid Configuration wizard. |             |
| On a Mailbox server, modify the accepted domains.         |             |
| Copy the Edge Subscription file to a Mailbox server.      |             |

A. Mastered

B. Not Mastered

**Answer: A**

**Explanation:**

| Actions   | Answer Area   |
|---|---|
| On the Edge transport server, run New-EdgeSubscription.   | On the Edge transport server, run New-EdgeSubscription.   |
| On a Mailbox server, run New-EdgeSubscription.            | Copy the Edge Subscription file to a Mailbox server.      |
| Run the Microsoft Office 365 Hybrid Configuration wizard. | On a Mailbox server, run New-EdgeSubscription.            |
| On a Mailbox server, modify the accepted domains.         | Run the Microsoft Office 365 Hybrid Configuration wizard. |
| Copy the Edge Subscription file to a Mailbox server.      |   |

#### NEW QUESTION 140

- (Exam Topic 7)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange server 2019 organization.

You discover that users rarely delete items from their Sent Items folder and their Deleted Items folder.

You need to recommend a solution to automatically reduce the size of the primary mailbox of each user. Solution: You recommend configuring a retention policy that contains two default policy tags.

Does this meet the goal?

A. Yes

B. No

**Answer: B**

**NEW QUESTION 141**

- (Exam Topic 7)

Your company named Contoso, Ltd. has a Microsoft Exchange Online subscription that uses a domain named contoso.com. Contoso works with a partner company named A.Datum Corporation. A.Datum has an Exchange Server 2016 organization that uses a domain named adatum.com. You need to ensure that users at Contoso can share their free/busy information with the users at A.Datum. What should you do for each company? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

|          |  |
|----------|--|
| A.Datum: | <div><div>▼</div><div>Configure Microsoft Azure Active Directory Connect</div><div>Create a federation trust between Exchange and Microsoft Office 365</div><div>Establish identity federation by using Active Directory Federation Services</div><div>Create a sharing policy</div></div>             |
| Contoso: | <div><div>▼</div><div>Establish identity federation by using Active Directory Federation Services</div><div>Configure Microsoft Azure Active Directory Connect</div><div>Create an organization relationship</div><div>Create a federation trust between Exchange and Microsoft Office 365</div></div> |

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

References:  
<https://docs.microsoft.com/en-us/exchange/sharing/sharing>

**NEW QUESTION 146**

- (Exam Topic 7)

You have a Microsoft Exchange Server 2019 organization. You purchase an Exchange Online subscription. You plan to implement an Exchange hybrid deployment that supports the following features:

- Federated sharing of free/busy information between organizations.
- Single-sign on (SSO) access to both on-premises and Exchange Online mailboxes.
- Secured access to mailboxes by using Microsoft Azure Active Directory (Azure AD) conditional access policies.
- A unified global address list (GAL) that contains all the mailboxes in the on-premises and Exchange Online organizations.

You plan to run the Microsoft Office 365 Hybrid Configuration wizard. You are evaluating whether to use Exchange Classic Hybrid or Exchange Modern Hybrid. Which requirement can only be met by using the Exchange Modern Hybrid connection option?

- A. the federated sharing of free/busy information between organizations
- B. secured access to mailboxes by using Azure AD conditional access policies
- C. a unified GAL list that contains all the mailboxes in the on-premises and Exchange Online organizations
- D. SSO access to both on-premises and Exchange Online mailboxes

**Answer:** B

**NEW QUESTION 148**

- (Exam Topic 7)

Your company has a Microsoft Exchange Server 2019 hybrid deployment. The company has two departments that have the mailboxes configured as shown in the following table. All the accounting department mailboxes reside in a database name ACCT-DB01. You create the mailboxes shown in the following table. You need to record all the email communication of the users in each department. The solution must minimize costs. What should you use for each department?

To answer, drag the appropriate options to the correct departments. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

| Options                             | Answer Area                   |
|-------------------------------------|-------------------------------|
| Database journaling                 | Accounting: <div>Option</div> |
| A journal rule that uses JRNL-MBX01 | Marketing: <div>Option</div>  |
| A journal rule that uses JRNL-MBX02 |                               |

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

References:

<https://docs.microsoft.com/en-us/exchange/security-and-compliance/journaling/journaling>

**NEW QUESTION 150**

- (Exam Topic 7)

You have a Microsoft Exchange Server 2019 organization.

You perform a Server Core installation of Windows Server 2019 on a server named EX05. You need to deploy Exchange Server 2019 to EX05.

Which two components should you install before you can install Exchange Server 2019 on EX05? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Visual C++ Redistributable package for Microsoft Visual Studio 2013
- B. Microsoft Report Viewer 2015 Runtime
- C. Unified Communications Managed API 4.0 Runtime
- D. Microsoft Office Filter Pack
- E. Windows Identity Foundation

**Answer:** AC

**Explanation:**

References:

<https://techcommunity.microsoft.com/t5/Exchange-Team-Blog/Deploy-Exchange-Server-2019-on-Windows-Ser>
